- NCS color book
- Additional color matching tool
- Flex paint capability (FR2-55 FLEX VARNISH BASE)
- FR2/55 Semi-gloss 25kg can white
- Tablet with installed APP

DESCRIPTION OF PRODUCTS & SERVICES

- COLOR MATCHING TOOL

Include a portable Spectro colorimeter, its transportation box, micro USB cable and a calibration blade.

- IPHONE/ANDROID APP *

Connected via Bluetooth with the color matching tool, the **ColorReader** App will allow you to get more info on your color match and save colors within a project. The App will be available on free download on the usual application stores like Play Store or Apple Store. The App will work only when the portable colorimeter will be connected via Bluetooth 4.0 or higher, and we highly recommend having access in internet.

The **ColorReader** App is compatible with Android 8 or higher, and iOS version 9." Or higher.

***Remark:** Download of the application will have some limitations in China, so we advise Chinese customers that we supply a tablet with the application installed at MAPAERO.

- COLOR ID DATA BASE

More than 2,800 color references can be identified, including NCS, RAL, BRITISH STANDARDS, main aircraft manufacturer cabin colors and some unique references from MAPAERO.

- MAPAERO'S COLOR FORMULA DATA BASE

2,200 color references and the composition of its formula, will be available online at www.MAPAERO.com, with an customized account and private access.

- PAINT STORING & MIXING BENCH**

Paint storing system to keep the semi-finished paint in good condition, 12 cans of 3,0L with internal mixing device, regularly activated to store your paint in the best conditions. Mixing device is powered by an ATEX engine.

****Remark:** Except for RUSSIA & USA (please check with us the suitable model to be purchased on local market)
